SUMMARY

React JS Developer with hands-on experience building responsive, component-based web applications using React.js and Context API. Skilled in developing reusable components, managing client-side state, and integrating REST APIs into clean, mobile-first interfaces. Comfortable working across the stack when needed, with practical experience in Node.js, Express.js, and MongoDB.

SKILLS

- **Frontend** : HTML5, CSS3, JavaScript (ES6+), React.js, React Router
- **Concepts** : Component-Based Architecture, Responsive Web Design, Form Handling, Authentication (JWT), JSON, Async/Await
- **Also familiar with:** Node.js, Express.js, MongoDB, REST APIs, CRUD Operations
- **Tools & Deployment** : Git, GitHub, VS Code, Vercel, Render

PROJECTS

E-Commerce Web Application | React.js · Context API · REST API Integration

- Built a React-based e-commerce app with reusable components, Context API state management, REST API integration, and a separate admin panel - deployed on Vercel & Render.
- Managed global cart and authentication state with React Context API, avoiding prop drilling across nested components.
- Integrated REST APIs (built in Express) for product, cart, and order data, handling loading and error states in the UI.
- Github | Live link | Admin link

Design Agency Website | Next.js · React.js

- Built a fully responsive multi-section site (Services, Portfolio, Contact) using Next.js and reusable React components.
- Used Next.js Image for optimized, responsive portfolio images.
- Implemented media queries for seamless layout across mobile, tablet, and desktop layouts.
- Github | Live link

EDUCATION

Bachelor of Computer Science

SEP 2022 - APR 2025

Sri Sankara Arts and Science College, Kanchipuram
CGPA: 7.56

CERTIFICATIONS

Full Stack Development Course – Skill Intern Pvt Ltd, Bengaluru

- Gained hands-on experience in HTML, CSS, JavaScript, React.js, Node.js, and MongoDB
- Used Git and GitHub for version control and project collaboration
